

Combi Spa is a massage spa without compromise! It is very spacious, has comfortable seats and lounge seats equipped with various massage sets. Combi Spa is always ready to provide you with a wonderful warm bath after a hard working day or sport performance. Combi Spa is designed to supplement the Swim Spa XL and to match its timeless design perfectly. The sophisticated interior of this massage pool with a non-standard external shape offers top massage positions corresponding to the Universum Spa luxury product line. Elaborate contours respect ergonomics, which means only one thing - perfect relaxation.

Thanks to the use of water and air jets which are mounted in specific hydrotherapy sets, Combi Spa provides a truly comprehensive massage. You can find here ShiatsuComplex point massage, FanComplex massage of important back areas and the very nice LegComplex massage from the buttocks and thighs over the calves and down to the soles of the feet. If necessary, the intensity of the massage can be adjusted in each position.

A little feature of the Combi Spa is its underwater Rainbow Light which you may appreciate during a night soak. The standard equipment of the spa includes the important thermal cover and the cabinet. The technology, a set created from top components, automatically ensures clean water, maintains the temperature and eliminates overall maintenance.

Combi Spa is supplied as a part of a complex package together with the Swim Spa XL.
